

**PROPERTY TAX APPEAL BOARD'S DECISION**

APPELLANT:     Randall Andracki  
DOCKET NO.:    04-24020.001-R-1  
PARCEL NO.:    03-29-213-044-0000

The parties of record before the Property Tax Appeal Board are Randall Andracki, the appellant, and the Cook County Board of Review.

The subject property is a 9,500 square foot parcel which has been improved with a 20-year-old, one-story, frame single family dwelling that contains 2,164 square feet of living area. The dwelling features a full unfinished basement, a fireplace, central air conditioning, and an attached two-car garage. The property is located in Arlington Heights, Wheeling Township, Cook County.

The appellant in this appeal submitted documentation to demonstrate that the subject property's improvement was being inequitably assessed. No dispute was raised concerning the land assessment. The appellant provided a grid analysis on three comparables along with property characteristic printouts. Two of the comparables are located on the same street as the subject and each is described as a one-story frame or frame and masonry single family dwelling. The dwellings range in age from 20 to 73 years old. Foundations of the comparables range from a crawl space to partial or full unfinished basements. Comparable number three had a full attic with living area. Each of the comparables featured a fireplace and central air conditioning along with a one and one-half or two car garage. The comparables ranged in size from 1,854 to 2,220 square feet of living area and had improvement assessments ranging from \$27,187

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	8,360
IMPR.:	\$	32,676
TOTAL:	\$	41,036

Subject only to the State multiplier as applicable.

to \$33,316 or from \$12.52 to \$15.19 per square foot of living area. The appellant also submitted the final decision issued by the Cook County Board of Review wherein the subject's total assessment of \$44,680 was disclosed. The appellant indicated the subject had an improvement assessment of \$36,320 or \$16.78 per square foot of living area. Based on this evidence the appellant requested the subject's improvement assessment be reduced to \$30,945 or \$14.30 per square foot of living area.

The board of review did not submit its "Board of Review Notes on Appeal" or any evidence in support of its assessed valuation of the subject property.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds the evidence in the record supports a reduction in the subject's assessment.

The appellant argued assessment inequity in the subject's improvement assessment. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill. 2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data the Board finds a reduction is warranted.

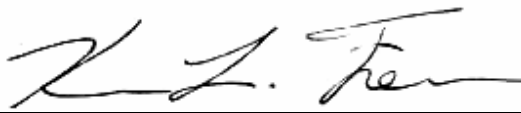

The Board finds the only evidence pertaining to the uniformity of the subject's improvement assessment was submitted by the appellant. The appellant provided nominal data on four comparables including the property index number, address, size, land assessment, improvement assessment, total assessment, and improvement assessment per square foot. Appellant's comparable numbers 3 and 4 with ages of 52 and 73 years, respectively, are significantly older than the subject property's age of 20 years and have been given less weight in the Board's analysis. The remaining comparables contained 2,100 and 2,220 square feet of living area, respectively, and had improvement assessments of \$31,899 and \$33,316 or \$15.19 and \$15.01 per square foot of living area, respectively. The appellant's evidence disclosed the subject had an improvement assessment of \$36,320 or \$16.78 per square foot of living area, which is above the range established by the most similar comparables. The board of review did not submit any evidence in support of its assessment of the subject property or to refute the evidence presented by

the appellant as required by section 1910.40(a) of the rules of the Property Tax Appeal Board. The Board has examined the information submitted by the appellant and finds, based on this limited evidence that was not refuted, a reduction in the assessed valuation of the subject property's improvement is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
